Arcade gaming has come a long way since its glory days – an era woven into the fabric of gaming history as one that paved the way for innovation, and also one that brought us bittersweet nostalgia. Hours spent at the arcade honed the gamer in you; for every coin you inserted, every combo you executed, every hit you took, and every ultra you unleashed in return – you became a better player. And this is the approach we took when designing the Razer Atrox Arcade Stick.

Years upon years of collective gaming experience from pro-gamers and you, the Razer community, have culminated in the ultimate Arcade Stick for the Xbox 360. Engineered and refined to perfection through countless prototypes and an extensive beta testing phase, the Razer Atrox Arcade Stick is crafted to allow advanced modification – With internals and storage easily accessible at the touch of a button, the joystick, all 10 buttons and the top panel are fully interchangeable for full customizability. And that's just the beginning.

Featuring genuine Sanwa Denshi™ hardware and an ergonomically authentic arcade layout, the Razer Atrox represents the pinnacle of precision and reliability and is the definitive Arcade Stick for tournament-grade gaming.

Forged from the fires of an arcade gaming legacy, the Razer Atrox is, in the most primeval sense, Bred to Fight.

Control Stick Switch

The Control Stick Switch allows you to change the functionality of the joystick to emulate the Left Analog Stick, Right Analog Stick or Directional Pad of the standard controller.

Note: To navigate the Xbox 360 Dashboard, set the Control Stick Switch to Directional Pad (DP).

Lock / Unlock Switch

Setting this switch to **Lock** (🔒) will disable the Start, Back, Xbox Guide and Turbo Buttons. However, all previously assigned turbo functions will remain active.

Turbo Buttons

The Turbo Buttons allow you to hold down a button instead of tapping that button repeatedly. There are 2 levels of turbo:
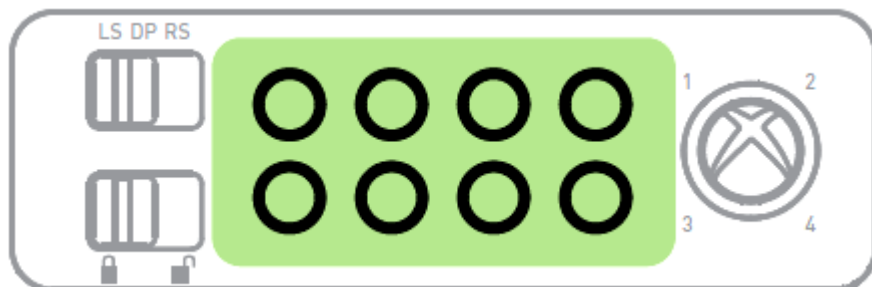

Turbo 1: To activate Turbo 1, press the turbo button once. The turbo button will have a steady light to indicate that turbo 1 is activated. When held down, the corresponding action button will perform an action four times (4x) every second.
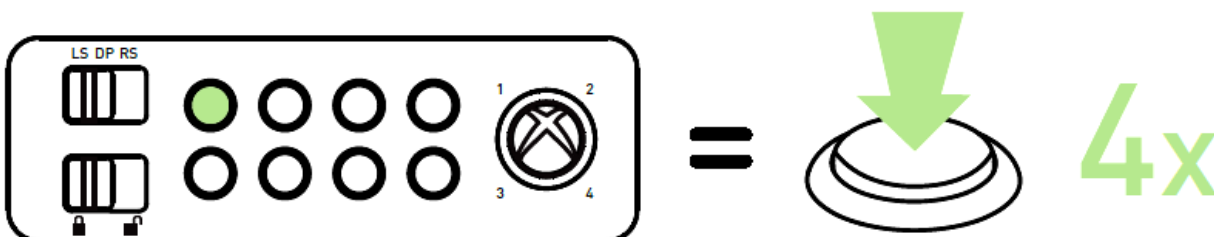

Turbo 2: To activate Turbo 2, press the turbo button twice. The turbo button will blink to indicate that turbo 2 is activated. When held down, the corresponding action button will perform an action eight times (8x) every second.
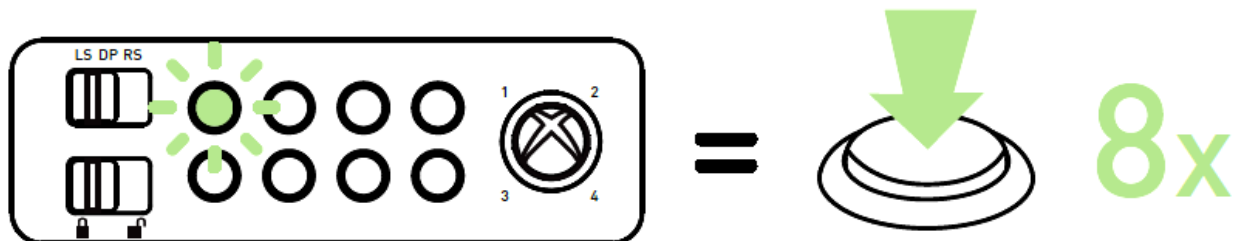

While in Turbo 1 or Turbo 2, press the respective turbo button once to cancel the turbo mode.

REASSIGNING THE TURBO BUTTONS

1. Press and hold Turbo Button 1, Turbo Button 8 and the Start button.
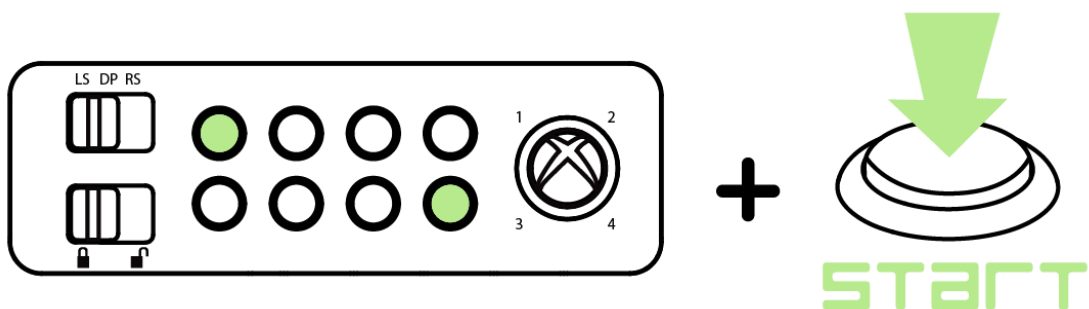

2. Upon activation, Turbo Button 1 will start to blink.
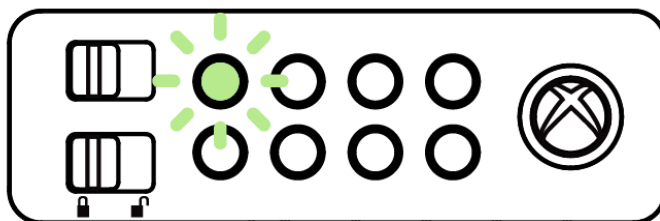

3. While the turbo button is blinking, you can either:
Press the action button you wish to assign.

OR
Press Start to skip the button assignment.
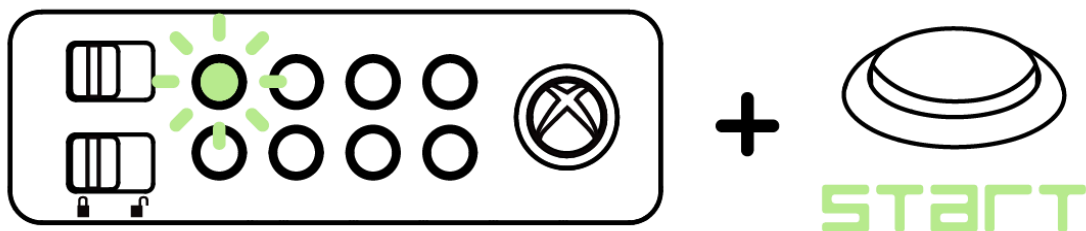

4. The turbo button will be lit if assigned to an action button or unlit if skipped.
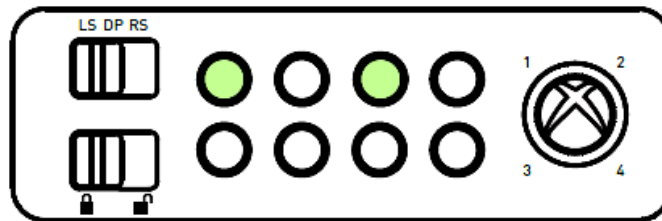

5. Once a turbo button has been assigned, the next turbo button will blink.
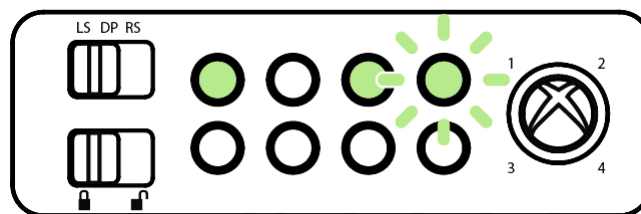

6. Repeat step 3 until all the turbo buttons have been assigned or skipped.
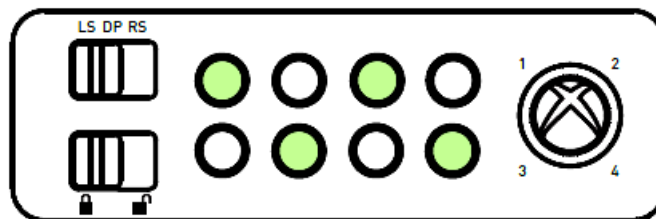

7. Once done, the turbo buttons will blink twice and you can continue gaming.

7. SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using your Razer Atrox, we suggest that you adopt the following guidelines:

1. Should you have trouble operating the device properly and troubleshooting does not work, unplug the device and contact the Razer hotline or go to www.razersupport.com for support. Do not attempt to service or fix the device yourself at any time.

3. Do not take apart the device (doing so will void your warranty) and do not attempt to operate it under abnormal current loads.

4. Keep the device away from liquid, humidity or moisture. Operate the device only within the specific temperature range of 0°C (32°F) to 40°C (104°F). Should the temperature exceed this range, unplug and switch off the device in order to let the temperature stabilize to an optimal level.

COMFORT

Research has shown that long periods of repetitive motion, improper positioning of your computer peripherals, incorrect body position, and poor habits may be associated with physical discomfort and injury to nerves, tendons, and muscles. Below are some guidelines to avoid injury and ensure optimum comfort while using your Razer Atrox.

1. Position the Razer Atrox directly in front of you and within easy reach.

2. Adjust the height of your chair and/or table so that the Razer Atrox is at or below elbow height.

3. Keep your feet well supported, posture straight and your shoulders relaxed.

4. During gameplay, relax your wrist and keep it straight. If you do the same tasks with your hands repeatedly, try not to bend, extend or twist your hands for long periods.

5. Do not rest your wrists on hard surfaces for long periods. Use a wrist rest to support your wrist while gaming.

6. Do not sit in the same position all day. Get up, step away from your desk and do exercises to stretch your arms, shoulders, neck and legs.

7. If you should experience any physical discomfort while using your Razer Atrox, such as pain, numbness, or tingling in your hands, wrists, elbows, shoulders, neck or back, please consult a qualified medical doctor immediately.

MAINTENANCE AND USE

The Razer Atrox requires minimum maintenance to keep it in optimum condition. Once a month we recommend you unplug the device from the USB port and clean it using a soft cloth or cotton swab with a bit of warm water to prevent dirt buildup. Do not use soap or harsh cleaning agents.
